

MIT App Inventor

100 Project Ideas

50 Basic Apps · 50 IoT Projects (Arduino, Bluetooth & Robotics)

Category	Count	Projects
Basic Apps	50	#1 – #50
Bluetooth	10	#51 – #60
Arduino	20	#61 – #80
Robotics	20	#81 – #100

■ Basic Apps — Projects #01 to #50

#01 Calculator Basic arithmetic with a clean UI Basic	#02 To-Do List Add, check, and delete daily tasks Basic	#03 Quiz App Multiple-choice quiz with scoring Basic
#04 Flashcard Viewer Study cards with flip animation Basic	#05 BMI Calculator Compute body mass index from inputs Basic	#06 Unit Converter Convert km, miles, kg, lbs, etc. Basic
#07 Stopwatch Start, stop, and lap timer Basic	#08 Alarm Clock Set and trigger audio alarms Basic	#09 Digital Clock Live display of current time Basic
#10 Countdown Timer Countdown to a specific event Basic	#11 Tip Calculator Split bills and calculate tips Basic	#12 Age Calculator Compute exact age from birthdate Basic
#13 Note-Taking App Save and retrieve text notes Basic	#14 Paint / Drawing App Draw with finger on canvas Basic	#15 Flashlight App Turn on/off the phone camera flash Basic

#16 Voice Recorder Record and replay audio clips Basic	#17 Text-to-Speech Convert typed text to voice output Basic	#18 Speech-to-Text Transcribe spoken words to text Basic
#19 Weather App Fetch live weather via API Basic	#20 Currency Converter Live exchange rates from web API Basic	#21 Contact Book Store and search contacts locally Basic
#22 Gallery App Browse and display phone images Basic	#23 Random Number Generator Roll dice or generate random values Basic	#24 Tic-Tac-Toe Game Two-player grid game Basic
#25 Snake Game Classic snake with score tracking Basic	#26 Whack-a-Mole Tap targets for points Basic	#27 Memory Matching Game Flip cards to find pairs Basic
#28 Password Generator Random strong password creator Basic	#29 QR Code Scanner Scan and decode QR codes Basic	#30 Barcode Reader Read product barcodes Basic
#31 Expense Tracker Log income and spending with charts Basic	#32 Habit Tracker Daily habit streaks and reminders Basic	#33 Fitness Step Counter Count steps using accelerometer Basic
#34 Map & Directions Show location on Google Maps Basic	#35 Compass App Magnetic compass using sensors Basic	#36 Sound Level Meter Measure noise via microphone Basic
#37 Translator App Translate text between languages Basic	#38 Dictionary App Look up word definitions Basic	#39 News Reader Fetch RSS headlines from the web Basic
#40 Recipe Book Store and display cooking recipes Basic	#41 Grocery List Shareable shopping checklist Basic	#42 School Timetable Display weekly class schedule Basic

#43 Grade Calculator Compute average grades/GPA Basic	#44 Attendance Tracker Mark and log student attendance Basic	#45 Pomodoro Timer 25/5 min work/break cycles Basic
#46 Photo Sharing App Take and send photos via email Basic	#47 Mood Journal Log daily mood with emojis Basic	#48 Math Practice Random math drills for kids Basic
#49 Tongue Twisters Random tongue twister display Basic	#50 Trivia Game Category-based question game Basic	

IoT: Bluetooth — Projects #51 to #60

#51 Bluetooth LED Control Toggle LED on/off over Bluetooth Bluetooth	#52 Bluetooth RGB Lamp Pick color for an RGB LED strip Bluetooth	#53 Bluetooth Chat Two-phone messaging via HC-05 Bluetooth
#54 Bluetooth Relay Switch Control AC appliance via relay Bluetooth	#55 Bluetooth Door Lock Send unlock code to servo lock Bluetooth	#56 Bluetooth Fan Speed Adjust DC fan speed from phone Bluetooth
#57 Bluetooth Car Remote 4-direction control for RC car Bluetooth	#58 Bluetooth Sensor Dashboard Display live Arduino sensor data Bluetooth	#59 Bluetooth Alarm System Trigger buzzer remotely Bluetooth
#60 Bluetooth Servo Control Drag slider to move a servo arm Bluetooth		

IoT: Arduino — Projects #61 to #80

#61 Arduino Temperature Monitor Read DHT11 and display live temp Arduino	#62 Soil Moisture Monitor Alert when plant soil is dry Arduino	#63 Smart Irrigation System Auto-water plants via relay Arduino
#64 Gas/Smoke Detector MQ-2 sensor alert to phone Arduino	#65 Fire Alarm App Trigger alert when flame detected Arduino	#66 Ultrasonic Distance Meter Measure distance and display cm Arduino
#67 Smart Light Switch Dim lights with LDR & app slider Arduino	#68 Heart Rate Monitor Display pulse from pulse sensor Arduino	#69 Air Quality Monitor Read PM2.5 / CO2 sensor data Arduino
#70 Water Level Alert Notify when tank is full/empty Arduino	#71 Smart Power Meter Display current consumption (ACS712) Arduino	#72 Weather Station Temp, humidity, and pressure display Arduino
#73 Rain Alert System Buzzer + app alert when rain detected Arduino	#74 GPS Tracker Send GPS coordinates to phone app Arduino	#75 RFID Attendance System Log student check-ins via RFID Arduino
#76 Motion-Activated Light PIR sensor triggers relay Arduino	#77 Smart Dustbin Lid opens when hand detected Arduino	#78 Earthquake Detector Vibration sensor triggers alert Arduino
#79 Fingerprint Door Lock Fingerprint module + servo lock Arduino	#80 EEPROM Data Logger Log and read sensor history Arduino	

■ IoT: Robotics — Projects #81 to #100

#81 Line-Following Robot App shows path and sensor data Robotics	#82 Obstacle-Avoiding Robot Ultrasonic wall avoidance + app Robotics	#83 Wireless Spy Robot App controls robot + camera feed Robotics
---	---	---

#84 Robotic Arm Control Sliders control 4-DOF servo arm Robotics	#85 Gesture-Controlled Robot Phone tilt moves the robot Robotics	#86 Voice-Controlled Robot Speak commands to drive robot Robotics
#87 Swarm Bot Coordinator Send commands to multiple bots Robotics	#88 Balancing Robot Monitor Show tilt angle from MPU-6050 Robotics	#89 Robot Soccer Controller Dual-joystick UI for game bot Robotics
#90 Sumo Robot Controller Attack/retreat button controls Robotics	#91 Autonomous Maze Solver View maze map from robot sensors Robotics	#92 Drone Flight Controller Joystick UI for quadcopter Robotics
#93 Caterpillar Track Bot Dual-motor control with telemetry Robotics	#94 Drawing Robot (Plotter) Send X-Y coordinates for pen Robotics	#95 Color-Sorting Robot TCS3200 sensor sorts objects Robotics
#96 Firefighting Robot App shows flame sensor readings Robotics	#97 Warehouse AGV Control automated guided vehicle Robotics	#98 Hexapod Walking Robot Leg gait selector on app Robotics
#99 Pick-and-Place Robot Coordinate input for arm target Robotics	#100 AI Vision Bot App triggers image classification Robotics
